To: FAA Docket Number FAA-2014-0396
Re: Model Aircraft Rule Interpretation
Enclosure: Bio Sheet

I agree with the FAA's position on FPV. I have expressed my concerns in writing about this activity to the AMA on 3 occasions since 2012. A model airplane should be operated within "line-of-sight" only. To do otherwise, blur's the line of distinction between a model airplane and a sUAS.

I disagree with the FAA's position on "commercial ventures" within the model airplane hobby/business. To deny "pay for services" seems un-American. Such action by the FAA would destroy the legitimate model airplane industry and cost thousands of jobs in the USA.

Sincerely,

A handwritten signature in black ink that reads 'Bob Violett' in a cursive style.

Bob Violett
